

It has come to my attention that Sinclair Broadcasting will be airing an anti-Kerry documentary days before the election. This is a clear violation of the air waves. This is not a late breaking story or a TV news magazine piece we are talking about. The very same people who would not carry a Nightline program simply because it listed the name of dead soldiers has some how decided that a one sided film that is an attack on a candidate for presidency is worthy of their time.

The bias here can not be more clear. Those airwaves belong to the public and the public has a right to either see a balanced program concerning both candidates or Sinclair should be forced to also air Michael Moore's 9/11 film. Let the public pick which slant it believes.

Anything less would not serve the nation.

Thank you.
